

**The most important thing for article publication:**

1. No AI content
2. Plagiarism should be less than 15%.
3. From one source, the text overlap should be less than 10%.
4. Even if its review paper, at least some work must be carried out by the authors
5. In results and discussion & conclusions, there should not be any text overlap.

**Publication windows for 16th ICMPC and how to upload**

**1. IJIDeM:** IJDM special issue on “Futuristic Trends in Design, Manufacturing and Computational Aspects of Green Composites”. This submission is now open. To submit paper:  
<https://link.springer.com/journal/12008/updates/26933758>  
(Kindly note that articles should be strictly in the theme)

**2. E3S:** This window is also open. If you are interested to submit paper, you need to send the full paper, both in word and PDF format to conference mail ID. Once you receive acceptance mail, you need to register. The article must be having some sustainability aspects in materials and manufacturing in it. **This window will be closed on 10<sup>th</sup> April.**

**3. AMPT: This publication window is closed now**

**4. Cogent:** This window is open. If you are interested to upload, mail to [icmpc-hyd@griet.ac.in](mailto:icmpc-hyd@griet.ac.in). APC for this journal is high (USD 1200) as its open access.

We are also waiting for another publication window to open (conference proceedings).
